

Thomas Gerald Murphy "Tommy"

Katz & Klein, Inc **EMPLOYEE SPOTLIGHT** **February 2008**

Tommy has been with Katz & Klein for six years this March and works in the Lens Inventory Department. He enjoys the relaxed atmosphere, knowing that he can listen to his music while doing his work. He also likes the sense of comradery and being like a family.

Tommy was born in Fort Campbell, Kentucky April 18th, 1980. His family moved to Tennessee for a short time and then to the greater Los Angeles area when he was two. This is where Tommy grow up and started going back and forth between LA and Sacramento when he was fourteen. He finally decided to make Sacramento his permanent residence when he was twenty.

When not at work he enjoys weight lifting, listening to music, and would like to pick up playing the drums. He has no strange or unusual talents that he is willing to admit to. Someday he would like to visit Germany where he has relatives. He really likes Mexican food with a nice cold beer or Coke...but hasn't found any Mexican food that compares to the fine cuisine in southern California.

Tommy's favorite color is green, so on St. Patrick's Day send him a green beer.

In the future Tommy hopes to own his own car and eventually a home. He hopes to raise his four year old son Liam to have a better life than he did.

Tommy is an awesome asset to Katz & Klein. On the very rare occasion he doesn't come to work, we all miss him. Tommy is known around the lab as a joker, a guy with quick wit, and always up for a good practical joke. We are happy and honored to have him as part of the Katz & Klein family.
