

**Robert "Rob" John
Monroe**
Katz & Klein, Inc
EMPLOYEE SPOTLIGHT
July 2009

Rob was born July 4, 1969 in Sacramento and has been here ever since. He has one brother and one sister. The one thing Rob will tell you about being born on the fourth of July is "on the positive side there is always something to do but on the negative side I have to choose between hanging out with friends or hanging out with family".

Rob started at Katz & Klein thirteen years ago part time doing wash up in the surface department. He is now the main finer and also our safety director. His favorite parts of working at Katz & Klein are "making a product that improves the quality of life for another person. I also like that I am around Steve LaDuke constantly because I love him.....like a brother, of course."

Rob's favorite foods are broccoli and bacon, favorite drink is iced tea without sugar or lemon and he loves the color green. When Rob is not working he enjoys playing drums on his own or with his band called Far From Fearless. He also collects Fire Department memorabilia and enjoys cuddling with Sandy.

Rob's dream vacation is to travel the U.S. in a motor home on a "food tour". His life goal is to make people happy with his music and to one day get married. A little known fact about Rob is that he is a little shy, and many people may not know that he is fairly talented at doing impressions of people.

Rob's motto in life is "do something goofy at least once a day" which fits his personality. We all enjoy working around him and he is a great asset to the company as well as a solid friend. Katz & Klein would not be the same without him.
