

LenStock

Stock lens ordering and inventory made easy!

LenStock is a business-to-business website that enables eye care professionals to quickly and easily order all major brands of stock lenses from one source.

LenStock is designed for eye care professionals only and is not available to the general public.

**No Membership Fees or Monthly Dues*

Quick & Easy Ordering

Easily re-order lenses by simply scanning the package barcode. Don't have the bar code? No problem! Just point and click on the items you wish to order.

Over 34,000 Square Feet of Quality Brand Name Lenses

LenStock provides eye care professionals with exclusive access to over 34,000 square feet of brand name lenses all under one roof. Exclusive access to this vast inventory enables eye care professionals to receive virtually every brand of lens in one shipment, often saving the office hundreds of dollars annually in shipping costs.

Free Inventory Management

LenStock has an optional inventory management system that can be used free of charge. Complete with minimum and maximum reorder limits, never again will you have to manually count or approximate the value of your stock lens inventory.

Advanced Reporting Capabilities

Real-time reporting shows Lenses On Hand, Lenses On Order and Lens Usage History. Purchasing an equivalent software package could easily cost an office several thousand dollars.
