

Lisa Snow Rembert

Katz & Klein, Inc

EMPLOYEE SPOTLIGHT

March 2008

Lisa was born March 9th (her birthday's coming up!!) 1961 in a truck between Bakersfield California and Utah. Her parents were moving to Utah when her mother went into labor. From Utah she moved to Arizona, back to California, Utah again, and at the age of twenty six, moved back to stay in Sacramento.

Lisa has worked for Katz and Klein for three and a half years and enjoys working in the Lens Inventory/Ordering Department where her job is full of daily challenges that keep it interesting. Her position also allows for her to be independent and have a great schedule.

When not at work, Lisa enjoys working around her house by painting and gardening. She also enjoys spending time with her daughter and her dogs. Lisa's idea of a good evening is a dish of her favorite Mexican food such as Carne Asada, Pasole, or Tacos, a Hennessey and Coke, and hanging out watching a movie at home. If you ask her if she had any strange or unusual talents, you'd find out she used to hang sheet rock!! Don't mess with her, she's tough!!

Some day Lisa hopes to return to finish school so she can get into Forensics. She would also like to pay off her house soon. If she ever disappears, Lisa will probably be found at a secluded resort in Cancun where she wants to take a month long vacation.
