

Nicholas "Nick" Allen Reynolds

Katz & Klein, Inc EMPLOYEE SPOTLIGHT October 2009

Nick has worked at Katz & Klein off and on over the past three years and is currently working in our Surface department. His primary job is running the generator but he also performs many other tasks in Surface and is very versatile.

Nick was born February 9th, 1984 in Washington D.C. When he was a year and half his family moved to Fairfield, CA. At age 4 the family moved to Minnesota, and when he was 14 moved back to California, settling in Sacramento where he has been ever since. Nick has one younger sister who also is his roommate. She is expecting a child soon, and Nick is excited to be a first time uncle.

If you ask Nick what his favorite part of working at Katz & Klein, he'd quickly responded with "the crew that I work with. They are a very diverse group of people but work together well as a team." He also likes that everyone gets along and cares about each other.

When not at work Nick loves eating ribs and drinking Guinness. His favorite color is red. Nick is a fun loving guy who is really easy to get along with. In his spare time Nick enjoys spending time with his fiancé, hanging out with friends, playing pool, building pocket watches and listening to music.

Nicks goals are to get married, have kids, and someday his own company; either a welding business or watch repair shop. One thing that sets him apart that not many people know is he can almost dislocate his own shoulder. Weird.

Nicks motto for life is "Have Fun". Perfect. Nick is a really good person, a fun guy and always quick to crack a joke. We all enjoy having him around, and he is a valuable part of our Katz & Klein team.
